- 6 Turn your device back on and try all the remote's functions to ensure they are working properly. If the functions do not work properly, repeat steps 1-5 using another code listed under your brand.
- 7 **If your device does not respond, follow steps 1 to 5 with each code listed for your brand. If none of the codes listed for your brand operate your device, or if your brand is not listed at all, try the search method described on page 6.**

Important notes:

- If your Set Top Box is not a standard Foxtel iQ Box, please follow the steps above pressing "sat" instead of "tv" during step 2.
- Most Televisions do not switch on pressing the POWER key. Please try pressing a "number" key or the "TV-text off" key to switch your TV back on.
- Some codes are quite similar. If your device does not respond or is not functioning properly with one of the codes, try another code listed under your brand.
- CBL and VAC codes can be set up in "sat" mode.
- Remember to press the correct device key before operating your device.

The Search Method

If your device does not respond to the URC-1669 after you have tried all the codes listed for your brand, try searching for your code. The Search Method allows you to find the code for your device by scanning through all the codes contained in the memory of the URC-1669. The Search Method may also work if your brand is not listed at all.

Example: To search for your TV code:

- 1 Switch your television on (not on standby) and aim your ONE FOR ALL at your TV.
- 2  Press the **tv** key on your URC-1669.
- 3  Press and **hold down** the **magic** key until the red LED underneath the POWER key blinks twice (the red LED will blink once then twice).  **x2**
- 4    Press **9 9 1**. The red LED will blink twice.
- 5  Next, press **POWER**.
- 6  Aim the URC-1669 at your Television. Now press **CH+** over and over, until your Television turns off (everytime you press the CH+ key the URC-1669 will send out a POWER signal from the next code contained in the memory). You may have to press this key many times (up to 150 times) so please be patient. If you skip past a code, you can go to the previous code(s) by pressing the CH- key. Remember to keep pointing the URC-1669 at your Television while pressing this key.
- 7  As soon as your television turns off, press the **MAGIC** key to store the code.

Important notes:

- If your Set Top Box is not a standard Foxtel iQ Box, please follow the steps above pressing "sat" instead of "tv" during step 2.
- Most Televisions do not switch on pressing the POWER key. Please try pressing a "number" key or the "TV-text off" key to switch your TV back on.
